Whom it may concern

Subject: **Mr. Ronen Rosenblatt, L.Ac.**

Mr. Rosenblatt has been working under my supervision, in the last two years as a volunteer in the Complimentary Medicine Unit, which operates within the Geriatric Department of the "Sorasky Medical Center" in Tel-Aviv ("Ichilov" hospital),

Ronen was an exceptionally dedicated and responsible volunteer with unique professional skills. He was highly regarded by patients, doctors, and colleagues alike, thus, was later nominated as head of unit.

In his position as the unit's manager, Ronen had vigorously searched for ways and means to expand and develop the Complimentary Medicine Unit, while enhancing its capacity and proficiency in the neurological rehabilitation of Post CVA patients and orthopedic rehabilitation of elderly.

Moreover, Ronen initiated and created an out-patient clinic within the unit, in order to allow patients which left the hospital, to continue their complementary treatment by the unit's skilled staff, in affordable fees.

Throughout the last two years, in which Ronen had worked under my supervision, he had proven to be a professional with an endless devotion and commitment to his work, his profession and his patients.

I would highly recommend Ronen to any hospital, or service seeking these qualities in an individual, practitioner of Acupuncture...

Sincerely,

Yaffa Lerman MD
Head of Geriatric Division
Tel Aviv Medical Center
